Analysis of prior sale or transfer history of the subject property and comparable sales												
The subject property is listed for sale at \$275,000. As of the pending date the subject has been listed for 26 days. *Sales price - \$275,000. Based on a comparison with current comparable listings and sales, the subject sales price appears to be slightly above similarly priced homes for the market area. Per Indy BLC database and per marion county assessor records the subject property has not transferred within the past 36 months. Per Indy BLC database there have been no transfers on the above comparable sales within 12 months of there closing date.												
Summary of Sales Comparison Approach												
See attached addenda.												
Indicated Value by Sales Comparison Approach \$ 265,000												
Indicated Value by: Sales Comparison Approach \$ 265,000 Cost Approach (if developed) \$ 265,322 Income Approach (if developed) \$ 0												
All sales adjustments represent the cash equivalency calculation method. Subject to the standard statement of contingent and limiting conditions. All three approaches to value were considered. Due to the lack of available data, the Income Approach could not be developed. The Cost and Sales Comparison Approach were developed.												
The Sales Comparison Approach was relied upon in the reconciliation process as it best reflects the buyer/seller activity and current market conditions.												
This appraisal is made ☒ "as is", ☐ subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, ☐ subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or ☐ subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair:												
Based on a complete visual inspection of the interior and exterior areas of the subject property, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is												
\$ 265,000 , as of 09/15/2026 , which is the date of inspection and the effective date of this appraisal.												

Uniform Residential Appraisal Report

ADDITIONAL COMMENTS	Zoning Compliance (Detailed Clarification)											
	Zoning Compliance (Summary Clarification) NOTE: *Based on D-4 - zoning ordinance, the subject appears to be legal and conforming.											
	THE HIGHEST & BEST USE ANALYSIS WAS USED IN THIS REPORT TO DETERMINE THE HIGHEST & BEST USE OF THE SUBJECT PROPERTY. THE HIGHEST AND BEST FOR THE SUBJECT PROPERTY USE IS AS ZONING; Single Family - Residential.											
	SCOPE OF WORK											
	The scope of this appraisal has been to perform a complete visual inspection of the interior and exterior areas, and analysis of the subject property within the limits of the type of appraisal assignment completed, to collect and analyze comparable data to reach an opinion of value, and to write a report conveying the value conclusion to the client. In the collection of data, all sources including MLS, lenders, brokers, county records, and the appraiser's files were utilized. It is assumed that the information from these sources is correct. All comparables have been verified as closed through at least two of the data sources utilized and cited, unless indicated to the contrary in the body of the report. I Tom Hall, IN-CR49400132, Certified Residential Appraiser has inspected the interior and exterior of the subject property and has performed an exterior inspection of all the comparable sales. This is an appraisal report. The definition of a complete visual inspection of the interior and exterior areas of the subject property" is as follows: A viewing of the subject property based only on a visible inspection of those items noted. These findings are based on observable conditions noted at the time of the viewing and other conditions known to exist at the time of the appraisal. I am not a licensed building contractor or professional building inspector. I am not qualified to survey or analyze physical items that are not readily visible. If any of the parties in this transaction have questions or concerns regarding any mechanical or structural physical problems, conditions, infestation, contamination, or other issues regarding the property, an expert in that field of specialty should be consulted.											
COST APPROACH	COST APPROACH TO VALUE (not required by Fannie Mae)											
	Provide adequate information for the lender/client to replicate the below cost figures and calculations.											
	Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value) The writers sources of information are, but not limited to, court house records, the files of and conversations with real estate professionals, the Multiple Listing Service (MIBOR's MLS data base), The Chamber(s) of Commerce, newspaper articles, local planning commission(s), contiguous land owners and developers who are presently offering vacant land and/or improved real estate for sale in the subject's market. Site values are determined by "Match Pair Analysis" and/or the "Extraction Method".											
	ESTIMATED	☐ REPRODUCTION OR	☒ REPLACEMENT COST NEW	OPINION OF SITE VALUE						= \$	51,000

	Estimated Remaining Economic Life (HUD and VA only) 50 Years				INDICATED VALUE BY COST APPROACH						= \$	265,322
	INCOME APPROACH TO VALUE (not required by Fannie Mae)											
	Estimated Monthly Market Rent \$ X Gross Rent Multiplier = \$ 0 Indicated Value by Income Approach											
	Summary of Income Approach (including support for market rent and GRM) Due to the lack of available sales with rental data, the Income Approach could not be developed											
PUD INFORMATION	PROJECT INFORMATION FOR PUDs (if applicable)											
	Is the developer/builder in control of the Homeowners' Association (HOA)? ☐ Yes ☒ No Unit type(s) ☒ Detached ☐ Attached											
	Provide the following information for PUDs ONLY if the developer/builder is in control of the HOA and the subject property is an attached dwelling unit.											
	Legal Name of Project											
	Total number of phases		Total number of units		Total number of units sold							
	Total number of units rented		Total number of units for sale		Data source(s)							
	Was the project created by the conversion of existing building(s) into a PUD? ☐ Yes ☐ No If Yes, date of conversion.											
	Does the project contain any multi-dwelling units? ☐ Yes ☐ No Data Source											
	Are the units, common elements, and recreation facilities complete? ☐ Yes ☐ No If No, describe the status of completion.											
Are the common elements leased to or by the Homeowners' Association? ☐ Yes ☐ No If Yes, describe the rental terms and options.												
Describe common elements and recreational facilities.												

Uniform Residential Appraisal Report

File # Loan#1333687

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Uniform Residential Appraisal Report

File # Loan#1333687

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
11. I have knowledge and experience in appraising this type of property in this market area.
12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

Uniform Residential Appraisal Report

File # Loan#1333687

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

APPRAISER:

TOM D. HALL, INDIANA CERTIFIED RESIDENTIAL APPRAISER

URAR : Neighborhood - Description

A neighborhood is a locality or region that can consist of commercial properties, more than one subdivision, and/or many residential properties that support the market occupant's needs. The neighborhood includes complementary land uses typically including homes, apartments, businesses, and schools. Neighborhoods may be small or large and have well differentiated geographic boundaries and can be described as a school district, a town, or some other geographic or governmental name. Neighborhood boundaries are subjective. Those boundaries should take into account the following: the level of maintenance and condition of houses, housing styles, ages and sizes, land uses, employment stability, appeal of the neighborhood (as compared to competing neighborhoods), and convenience to infrastructure improvements such as shopping areas, employment areas, recreation areas, schools, and public services. The neighborhood boundaries on page #1 of the URAR are considered to most closely represent the aforementioned criteria and characterize this appraiser's opinion of the neighborhood. The market area is the area that a typical buyer will consider when making a purchase decision and is rarely defined by one subdivision. Instead, a buyer for a property like the subject will likely search many similar subdivisions within a neighborhood or other area based upon price, school district, and/or property amenities such as bedroom and bathroom count, quality, design (ranch vs. two story), and other elements. As such, the marketing area is considered to be the most important search parameter when appraising a property as that area will mimic the search a buyer would make when buying a property.

The subject is located in Liberty Creek, Western Marion County, this neighborhood is located near employment, schools, shopping, services, major thoroughfares and is served by public transportation. Neighborhood is adequately served by public utilities and police and fire protection. Zoning regulations are in place and adequate to protect area from negative external conditions. The subject neighborhood is comprised mainly of residential subdivisions and homesites. The area consists of mostly single family ranch and 2 story homes of various styles and designs. The neighborhood also includes some commercial and special use land usage. The subject property and some comparables are located within two-three miles of Indianapolis Metro (eagle creek) Airport. The Indianapolis Metro (eagle creek) Airport does not adversely effect overall marketability. There were no unfavorable factors noted in the neighborhood that would adversely affect overall marketability.

· URAR : Sales Comparison Analysis - Summary of Sales Comparison Approach

The writer's comparable sale search criteria included the following: Similar construction; Location, within a one+/- mile radius from subject's property and in the subject's market area. Time; Within 12 months from appraisal inspection date. (GLA- from 1,260 sf to 1,575 sf. ages (from 33 - 42 years old), similar utility. (For subject's defined neighborhood/market area) See page one Neighborhood boundaries for overall neighborhood area parameters. The comparable sales chosen range more than 15%; however, they were the best available and after adjustments are considered to be valid indicators of the market value for the subject.

All of the comparable sales are located within the subject's market area and are considered to be influenced by the same marketing forces. All comparables are located with in the same school district as our subject and shares the same work and social opportunities.

Market Condition Trends – continued;

16 closed sales were observed within the past 12 months. There are currently 4 active listings.

Multiple analyses of sale price on relevant closed data over the past 12 months in the subject's market was utilized to determine that the ideal method for market condition (i.e. time) adjustments is a polynomial-2 regression trendline calculated based on all competing properties. This is a non-linear trend which is common in markets that experience varying levels of increase, decline, and stability over time. See the attached chart and data (based on the effective date of 09/15/2026). The available comparable sales have fluctuated over 12 months - which is common for the subject market trend based on limited semi-sales and sales with many different amenities. Some on slabs, crawls, basement – finished or unfinished, shed, out buildings or below ground pools.

As a result, This provides an adequate sample of the market trend: however, not enough to provide evidence of time adjustments. No market condition adjustments are applied based upon fluctuating percentages for all properties but instead based on how much the market has increased or declined since each comparable's individual contract date.

The general market conditions in Northwestern Marion County, Indianapolis, Indiana currently appear adequate, Financing is available and competitive. FHA, Conventional and VA Financing are all typical of this market.

Adjustment is made to comparable sales 2, 4 and 6 for seller paid concessions. The seller concessions on these comparable sales were not itemized per Broker and BLC database. However, seller concessions are normally used for lowering buyer's costs that would typically be included in securing a mortgage. Seller concession adjustments made in this report are based on dollar-for-dollar deductions.

LOCATION/VIEW: *The subject property is located adjacent to commercial property to the rear. A single adjustment is made for location/view to comparable sale 2 - 6 based the subject being located adjacent to commercial property. The subject and comparable sale 1 are considered to have equal location/view and no location/view adjustments are required.

SITE: The subject and comparable sales 1, 2, 4, 5 and 6 are considered similar in site size/value and require no adjustments. Adjustment is made to comparable sale 3 based on the subject having a smaller site size. The site adjustments are above or below .10 of an acre from the subject at \$10,000 per acre.

QUALITY OF CONSTRUCTION: The subject and all comparable sales are similar in QUALITY OF CONSTRUCTION. (no adjustments are required).

AGE: Based on area market data and BLC Database trends, the subject and all comparable sales age are considered similar in overall effective age and require no age adjustments.

CONDITION: Based on Indy BLC Database and the writer's observation, the subject and comparable sales 1- 5 are considered similar in condition and require no adjustments. An adjustment is made to comparable sale 6 for condition based on them being more improved with updates/upgrades to the subject in condition/updates/upgrades. ***Condition** Adjustments continued; Condition adjustments were also made based on Brokers comments and BLC photos. (Meaning, floor coverings, painting, wood working, Kitchen countertops, baths appliances and overall updates). After adjustment to comparable sale 6 that differ from the subject for conditions, comparable sale 6 is deemed as reliable indicator's of value, equal to the other comparable sales chosen for this report.

GROSS LIVING AREA:

Supplemental Addendum

File No. Loan#1333687

Borrower	Daniel Clerc					
Property Address	5668 Liberty Creek Dr W					
City	Indianapolis	County	Marion	State	IN	Zip Code 46254
Lender/Client	Union Home Mortgage					

The writer physically measured exterior and interior of subject property. The writer affirms that all dimensions were measured and reported to the nearest inch or tenth of a foot per ANSI measurement guidelines within this report. *(GLA adjustments were made based on the paired sales analysis) Gross living area adjustments were made at \$54.00 per square foot above or below 100 square feet of the subject GLA based on all 6 comparable sales median SF being \$187.23 X 30% market reaction/construction adjustment = \$54 rounded. The \$54.00 GLA adjustment is a single adjustment for overall room count and gross living area based on the paired sales analysis and area market reaction.

BELOW GRADE/BASEMENT: There are no basement square foot adjustments for sales above or below 100 square feet of the subject. All other basement adjustments are made at \$22.00 per square foot. A single adjustment is made for overall basement square footage and finished basement square footage. (comparable sale basement square footage and basement finished square footage was verified by hamilton county assessor records and/or Indy BLC database). Basement finished rooms are adjusted at \$5,000 per finished room. Basement finished bath rooms are adjusted at \$5,000 per full finished bath room.

FINAL RECONCILIATION

NOTE: All comparable sale adjustments were developed using recognized appraisal methodology, including paired sales analysis, and reflect market-supported reactions. In reconciling the applicable approaches to value, the Sales Comparison Approach was given primary emphasis, as it is considered the most reliable indicator of market value for residential properties of this type in the subject's market area. The Cost Approach was developed (but given minimal weight) due to the age of the improvements / lack of reliable depreciation data, and the Income Approach was not developed, as the subject property is not typically purchased for income-producing purposes.

A total of six closed comparable sales were analyzed. Each comparable was selected based on its overall similarity to the subject property, including factors such as location, gross living area, design, age, condition, bedroom count and utility. All comparable sales are located within a reasonable proximity to the subject and are considered competitive within the same or similar market area.

Market-derived adjustments were applied to each comparable to account for differences between the subject property and the comparables. After adjustments, the comparables demonstrated a reasonable range of indicated values.

Greatest weight was given to Comparable Sales 3, 4, 2, 5 and 1, as they required the fewest and most minor adjustments and are most similar to the subject in key characteristics. Secondary weight was given to Comparable Sale 6, which, while still relevant, required slightly greater adjustments or were less similar in certain aspects.

The final opinion of value reflects a reconciliation of the adjusted sale prices, with emphasis placed on the most comparable and reliable indicators. The value conclusion is supported by current market conditions, the actions of typical buyers and sellers, and the principle of substitution.

NOTE: The writer has inspected the exterior of all comparable sales for this report. All comparable photo's are from recent exterior inspections, previous exterior inspections and/or BLC photo's.

PRECEDENCE OF COMMENTS AND CONDITIONS

This report may contain comments, conditions, and/or certifications added by the signing appraiser(s) and/or HALL and Associates including, but not limited to, this Supplemental Addendum. These items shall supersede and take precedence over all other language, requirements, or conditions contained in any preprinted and/or third party forms or documents included in, or incorporated by reference into, the appraisal report.

HALL and Associates expressly retains all rights, title, and interest in all patents, trademarks, trade names, trade secrets, software, data, conclusions, opinions, valuations, or other information included in, arising out of, or in any way related to this appraisal or the provision of appraisal services to the named client and /or Intended User. The report and information supplied by the staff and/or agents of HALL and Associates is a culmination of intellectual education, professional experience, personal investigation, and know-how, which shall at all times remain the property of HALL and Associates. No person shall be entitled to break down, strip out or mine, or disseminate any component or part of this report, including, but not limited to, and conclusions, valuations, opinions, or other data compilations herein. Notwithstanding, the Intended User as defined below any use this appraisal report and the contents herein for the limited purpose and use identified below.

THE INTENDED USER- This is an appraisal report in accordance with USPAP Rule 2-2(a).

Union Home Mortgage is the "Intended User" of this appraisal report. The appraisal report is for the sole use and benefit of the Intended User for the limited purpose and function stated below, and no other person/entity shall be entitled to rely on this appraisal without prior written consent from HALL and Associates. Further, by accepting and using this appraisal report, the Intended User acknowledges and agrees that he/she/it shall not, except as otherwise required or permitted by law, disseminate or otherwise disclose this appraisal report or the contents or components thereof to any person or entity without prior written consent from HALL and Associates.

THE PURPOSE AND INTENDED USE OF THE APPRAISAL REPORT

*The writer is NOT a home inspector. Buyers need to secure their own home inspection through the services of a qualified inspector and satisfy themselves in regard to the property condition. The Appraiser does not guarantee that the Property is free from defects. The appraisal establishes the value of the Property for mortgage purposes only. The intended use of the appraisal is solely to assist Union Home Mortgage in assessing the risk of property securing the Mortgage. The purpose of this appraisal report is to establish a market value for the fee simple interest of the subject property as of the date of this appraisal. The intended use of the appraisal report is for Union Home Mortgage.

RECONCILIATION

NOTE TO READER:

The signature(s) that appear within this report are the computer generated digitized signature(s), of the writer and are certified to carry the same weight and authority as a personal signature. This feature is PASSWORD PROTECTED.

Digitized signature(s) are one of the features of "state of the art" appraisal software programs and are accepted by the mortgage, private mortgage insurance and investment communities.

The writer has made this investment in an effort to minimize the cost, to the consumer, and provide the most professional work product possible.

Market Conditions Addendum to the Appraisal Report

File No. Loan# 1333687

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.

Property Address **5668 Liberty Creek Dr W** City **Indianapolis** State **IN** ZIP Code **46254**

Borrower **Daniel Clerc**

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

Inventory Analysis	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend

Median Sale Price as % of List Price	100%	98%	98%	☐ Increasing	☒ Stable	☐ Declining

Seller-(developer, builder, etc.) paid financial assistance prevalent?

☒ Yes ☐ No

Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.).

An analysis was performed on 16 competing sales over the past 12 months. For those sales, a total of 56.3% were reported to have seller concessions. This analysis shows a change of +12.2% per month.

Are foreclosure sales (REO sales) a factor in the market? ☐ Yes ☒ No If yes, explain (including the trends in listings and sales of foreclosed properties).

An analysis was performed on 16 competing sales over the past 12 months. For those sales, a total of 0.0% were reported to be REO.

Cite data sources for above information. Information reported in the ConnectBLC system (using an effective date of 09/15/2026) was utilized to arrive at the results noted on this addendum. Any percent change results noted in these comments are based on simple regression.

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

An analysis was performed on 16 competing sales over the past 12 months. The sales within this group had a median sale price of \$256,000. This analysis shows a change of +0.3% per month. The median sales price was \$256,000. These sales had a median DOM of 9. The comparables chosen for the above data were comparables most similar to the subject property in size and proximity. They were the best comparables available per BLC database. BLC database only provides days on the market information on the most recent listing. Up to 3 months appear to be normal marketing times. *See addenda page for further market trend details.

If the subject is a unit in a condominium or cooperative project, complete the following:

N/A

Project Name:

Subject Project Data	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend		
Total # of Comparable Sales (Settled)				☐ Increasing	☐ Stable	☐ Declining
Absorption Rate (Total Sales/Months)				☐ Increasing	☐ Stable	☐ Declining
Total # of Active Comparable Listings				☐ Declining	☐ Stable	☐ Increasing
Months of Unit Supply (Total Listings/Ab.Rate)				☐ Declining	☐ Stable	☐ Increasing

Are foreclosure sales (REO sales) a factor in the project?

☐ Yes ☐ No

If yes, indicate the number of REO listings and explain the trends in listings and sales of foreclosed properties.

N/A

Summarize the above trends and address the impact on the subject unit and project.

Market Conditions Trends

Multiple analyses of sale price on relevant data over the past 12 months in the subject's market was utilized to determine that the ideal method for market condition (i.e. time) adjustments is a polynomial-2 regression trendline calculated based on all competing properties. This is a non-linear trend which is common in markets that experience varying levels of increase, decline, and stability over time. As a result, the market condition adjustments applied are not based upon one set percentage for all properties but instead based on how much the market has increased or declined since each comparable's individual contract date. See the below chart and data (based on the effective date of 09/15/2026).

Market Conditions (Time) Adjustments by Month

Trend Value as of the Effective Date: \$258,797

Prior 12 Months

Month/Year	09/25	10/25	11/25	12/25	01/26	02/26	03/26	04/26	05/26	06/26	07/26	08/26
Adjustment	3.6%	3.2%	2.7%	2.4%	2.0%	1.6%	1.4%	1.1%	0.8%	0.6%	0.4%	0.2%
Trend Value	249,760	250,828	251,872	252,823	253,743	254,602	255,323	256,064	256,722	257,340	257,880	258,376

NOTE: The Trend Value noted above for each month is the value on the trendline for that month. The adjustment percent is calculated by subtracting this value from the value as of effective date and then dividing by that same Trend Value.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.

APPRAISAL AND REPORT IDENTIFICATION

This Report is one of the following types:

- ☒ Appraisal Report (A written report prepared under Standards Rule 2-2(a), pursuant to the Scope of Work, as disclosed elsewhere in this report.)
- ☐ Restricted Appraisal Report (A written report prepared under Standards Rule 2-2(b), pursuant to the Scope of Work, as disclosed elsewhere in this report, restricted to the stated intended use only by the specified client and any other named intended user(s).)

Comments on Standards Rule 2-3

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

Reasonable Exposure Time

(USPAP defines Exposure Time as the estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.)

My Opinion of Reasonable Exposure Time for the subject property at the market value stated in this report is: _____

*It is the writer's opinion that a reasonable exposure time for the subject property at the opinion of value indicated is estimated to be (90) days or under and was derived using Indy BLC Database comparable sales days on market data (both active and closed data).

Comments on Appraisal and Report Identification

Note any USPAP-related issues requiring disclosure and any state mandated requirements:

(1) Prior Services - The appraiser of this report, as indicated in the signature section, has NOT provided any prior services for the subject property in the 36 months prior to the effective date of the report.

"This appraisal report conforms to USPAP, Title XI of FIRREA, and any implementing regulations in effect as the effective date of this report."
